HEALTH AND SAFETY POLICY

“Through the way we work and behave, all our people and stakeholders will be protected from risks of occupational injury or ill health.”

Our Health and Safety Policy:

We will demonstrate an ongoing and determined commitment to improving health and safety at work throughout our organisation.

We will ensure the health and safety at work of all our people and any other people who may be affected by our work activities.

We will comply with the requirements of health and safety legislation.

This policy reflects our commitment to ensuring that health and safety at work is paramount to the business and that effective health and safety actively contributes to our success.

Adequate resources will be provided to ensure all our people, the sub-contractors and stakeholders are aware of this policy and committed to its effective implementation.

There will be active open communication and consultation between all our people, the sub-contractors and stakeholders. Health and safety will be integrated into our communications, wherever appropriate.

Roles and responsibilities for health and safety will be defined, as necessary, within job descriptions or profiles.

Senior management will ensure that:

- Adequate resources are provided for health and safety;
- Health and safety is adequately assessed, controlled and monitored; and
- Our people are actively involved on matters that affect health and safety.

We will identify our workplace health and safety hazards. We will inform our people, the sub-contractors and stakeholders, as appropriate, of these workplace hazards.

We will require our sub-contractors and stakeholders to identify health and safety hazards that may impact on our work activities.

All our people will be adequately instructed and trained on the health and safety issues that affect them, and the safe working practices that should be followed.

We will assess the risks associated with health and safety hazards in the workplace. All our people will be informed of the health and safety hazards and risks that affect their work. We will take action to prevent, reduce or control risks to an acceptable level and reduce the potential for incidents and accidents.

This policy will be reviewed and amended, as necessary.
